

Peters[®] Excel

CalMag Grower 15-5-15+7CaO+3MgO+TE

Product Information

Peters Excel CalMag Grower

Peters Excel products offers unique formulations, providing the ability to deliver complete plant nutrition using only a single-concentrate stock tank. Peters Excel products take into account the quality of irrigation water for the ultimate in usability.

“CalMag” delivers a continuous supply of calcium and magnesium, which is missing in soft water systems. It is also extremely reliable due to its composition of raw ingredients and chelated trace elements. This provides for healthy colour and optimum growth. It contains M-77 technology, allowing for maximum absorbability of nutrients.

Product characteristics

EC at 1 g/l (25°C)	: 1.0 mS/cm; measured in water with 50mg/l HCO ₃
Maximum solubility	: 46 kg / 100 liter water (25°C)
Acidity(A)/Basicity(B)	: B 0.060 kg CaCO ₃ /kg
Packaging details	: 15 kg, plastic bag
Product code	: 2152

Features and benefits of Peters Excel CalMag Grower

- Especially developed for use in soft water, unique in its effects.
- Healthy growth as a result of continuous supply of calcium and magnesium.
- Reliable system thanks to selected composition of raw materials and chelated trace elements.
- High level of chelated trace elements ensures perfect color and growth.
- Maximum availability and absorbability because of M-77 chelating complex.
- Single-tank-mix concept: all nutrient elements in a single storage tank, including calcium.

Directions for use

Special formulation for use with soft water. The N:K ratio is aimed at growth.

Can be mixed with calcium nitrate in the same tank (50:50%). A 'single-tank mix' solution: contains all necessary nutrients

To ensure that this product dissolves completely, prepare the stock solution 1-2 hours before use, stir well or use warm water. Please contact your ICL advisor for a specific crop recommendation. Do not mix Peters Excel with any other NPK or phosphate containing fertilizer, except phosphoric acid.

Attention

Store the product in a cool, dry and ventilated place.

As circumstances can differ and as application of products is beyond our control, ICL Specialty Fertilizers cannot be held responsible for any negative results. With this publication, all previously given recommendations expire.

Before a new rate, product or application method is used, a small-scale trial is recommended.
