

# Peters<sup>®</sup> Professional

Combi-Sol 6-18-36+3MgO+TE

## Product Information

Peters Professional offered by ICL is the brand to count on when needing 100% water soluble fertilizers. It has different varieties that respond to specific situations and different growth phases.

Thanks to its exclusive M-77 chelating formula, Peters Professional assures that nutrients and trace elements remain readily available for fast and easy uptake. M-77 “unlocks” the rooting area, allowing an effective increase in the absorbing of nutrients. What is offered to a plant is only important if the plant can actually absorb it.

### Guaranteed analysis

<b>6%</b>	<b>TOTAL NITROGEN (N)</b> 6.0% nitrate nitrogen (NO <sub>3</sub> -N)
<b>18%</b>	<b>PHOSPHORUS PENTOXIDE (P<sub>2</sub>O<sub>5</sub>)</b> Soluble in neutral ammonium citrate and in water, 18% water soluble
<b>36%</b>	<b>POTASSIUM OXIDE (K<sub>2</sub>O)</b> 36.0% water soluble
3.0%	MAGNESIUM OXIDE (MgO)
7.0%	SULPHUR TRIOXIDE (SO <sub>3</sub> )
0.02%	Boron (B)
0.015%	Copper (Cu) chelated by EDTA
0.25%	Iron (Fe) chelated by DTPA
0.06%	Manganese (Mn) chelated by EDTA
0.010%	Molybdenum (Mo)
0.015%	Zinc (Zn) chelated by EDTA

### Product characteristics

EC at 1 g/l (25°C)	: 1.1 mS/cm
Maximum solubility	: 30 kg / 100 litre water (25°C)
Acidity(A)/Basicity(B)	: B 0.122 kg CaCO <sub>3</sub> /kg Peters
Packaging details	: 15 kg, plastic bag
Product code	: 2101

### Directions for use

Peters Professional Combi-Sol is the ideal solution for application in combination with calcium nitrate (using the two-tank system). It has modified higher levels of trace elements for perfect results, even after dilution. Peters Professional Combi-Sol can also be used as a complete fertilizer. The product has an N:K ratio of 1:6 for compact plant growth. It is ideal when the irrigation water contains high levels of nitrogen.

To ensure that this product dissolves completely, prepare the stock solution 1-2 hours before use, stir well or use warm water. Please contact your ICL advisor for a specific crop recommendation. This product should not be mixed with Peters Excel. Store under dry conditions. Partly used or damaged bags should be closed well.

## Features and benefits of Peters Professional

- Small granules which easily dissolve; 100% water soluble.
- Pure formulation, no ballast substances.
- Contains NPK, magnesium and trace elements.
- Fast plant response after application.
- Developed for peat based cultures (pot plants, bedding plants and container nursery stock).
- Only Peters fertilizers contains the unique M-77 chelating formula!

**Recommended application rates**

Continuous feeding 0.5 – 1.5 g/l  
 Occasional feeding (e.g. 1 x week) 0.8 – 2 g/l

**Attention**

Trial first on a small scale before rate, application or other changes in your cultural practices are implemented. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be made responsible for any negative results.
