

11-6-20_{+6Ca+1.5Mg} High K Cal-Mag

All-purpose fertigation formulation to promote fruit set and fruit quality plus stalk strength.

The Agrolution® portfolio offers a wide range of analyses covering all stages of crop growth and offering solutions for specific soil and water types. This advanced line of root zone fertigation fertilizers has been developed to supply readily available nutrients in the correct proportions while offering the convenience of a single-bag solution to fit any agronomic need.

Features

Each Agrolution formulation offers a quick dissolving, fully soluble fertilizer plus a balanced mix of fully chelated micronutrients with enhanced zinc and iron concentrations. Agrolution brings you one step closer to optimal crop quality, setting a new standard in fertigation for all substrate grown and soil grown fruit and vegetable crops.

SKU – G93262

Packaging – 50 lb

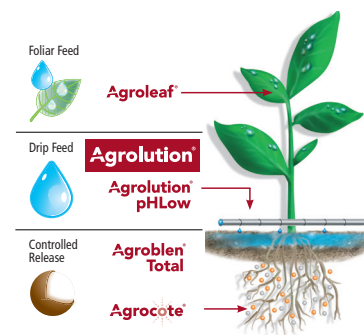

Specific Usage

Agrolution 11-6-20 High K is designed for use during the reproductive (fruit establishment) stage. It provides an elevated ratio of potassium to nitrogen, and can be used to provide extra calcium and magnesium when the crop demands it. This all-purpose formulation can be used on a variety of crops and contains the fully chelated micronutrient pack, M-77.

Product advantages

- All-in-one convenience
- Improved crop growth, quality and yield
- Non-acidic formulation for low pH soils, low alkaline water
- Increased levels of calcium and magnesium
- Pure ingredients
- Dissolves completely
- Keeps irrigation systems clean

Where needs take us

GUARANTEED ANALYSIS

11-6-20

Total Nitrogen (N)	11%
0.2% ammoniacal nitrogen	
10.8% nitrate nitrogen	
Available Phosphate (P ₂ O ₅)	6%
Soluble Potash (K ₂ O)	20%
Calcium (Ca)	6.0%
Magnesium (Mg)	1.5%
1.5% water soluble magnesium (Mg)	
Boron (B)	0.02%
Copper (Cu)	0.05%
0.05% chelated copper (Cu)	
Iron (Fe)	0.15%
0.15% chelated iron (Fe)	
Manganese (Mn)	0.05%
0.05% chelated manganese (Mn)	
Molybdenum (Mo)	0.0005%
Zinc (Zn)	0.1%
0.1% chelated zinc (Zn)	

Derived from: Monopotassium Phosphate, Potassium Nitrate, Calcium Nitrate, Magnesium Nitrate, Boric Acid, Copper EDTA, Iron EDTA, Manganese EDTA, Ammonium Molybdate, Zinc EDTA

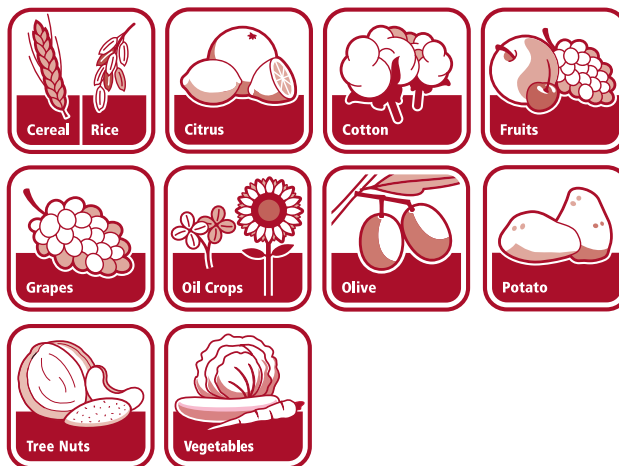

The Everris™ Testing Laboratory is a reliable source for testing water, growing media/soil or plant tissue. Everris recommends a soil test before initiating any nutrition program. For test kits, call 1-877-467-8522.

Directions for Use

This product is designed for application at the crop root zone via fertigation.

Product Range

Name	Formulation
Balanced Feed	20-20-20
High N	32-11-11
High K	11-6-20 +6Ca +1.5Mg
Low P	20-2-20 +1.5Mg
Zero P CalMag	15-0-15 +5Ca +2Mg
High K with Ca	16-3-26 +3.4Ca
